BottleGlow™

Product manual

www.creative.lighting

Safety information

Keep the lamp dry and away from fire or extreme heat. Do not disassemble it. Small parts are included. Children under five should use it only with adult supervision.

What’s in the box

BottleGlow™ lamp, USB-C charging cable and instruction manual.

Product overview

BottleGlow™ fits into a suitable glass bottle to create a cordless table lamp. The touch control is on top of the shade.

Top touch control and tapered stem

Specifications

Dimensions	10.5 × 14.5 cm (4.1 × 5.7 in)
Material	Iron
Battery	5,200 mAh
Runtime	Up to 24 hours
Charging	USB-C
Light tones	Warm, natural and cool white
Brightness	Stepless dimming

Setup

1. **Charge the lamp**
   Connect the included USB-C cable to the charging port and a compatible USB power source. Disconnect the cable after charging.

2. **Choose a stable bottle**
   Set a suitable glass bottle on a flat surface. Check that its opening fits the tapered stem securely.

3. **Fit the lamp**
   Lower the stem into the bottle opening. Check that the lamp sits securely before use.

How to use

1. **Tap the top control**
   Use short taps to turn the light on or off and switch between its three white light tones.

2. **Adjust the brightness**
   Touch and hold the top control. Release when the light reaches your preferred brightness.

Care and maintenance

Unplug the charging cable before cleaning. Wipe the lamp with a soft, dry cloth. Recharge it when the light dims and at least once a month during extended storage. The light source cannot be replaced.

Troubleshooting

If the lamp is dim or does not respond, recharge it with the included cable. Check that the cable is fully connected and the USB power source is on. If the issue continues, please contact customer service.
